GOALS OF SUSTAINABLE DEVELOPMENT

Eradicating hunger & Reduce Wasted are two of the most urgent challenges of development

**AMOUNT OF THE FOOD THAT WORLD PROCUDE IS
ENOUGH TO FEED DUBLE OF OUR POPULATION**

**... HOWEVER, 1300 MILLION TONS OF FOOD ARE
WASTED EACH YEAR**

**SAVING ONLY HALF OF WHAT IS WASTED IT WOULD BE
ENOUGH TO FEED THE WHOLE WORLD**

Social Impact:

793 million people suffer from hunger worldwide

Environmental Impact:

10% of gas emissions connected with global warming come from food waste.

Economic Impact:

750 million dollars per year is the cost of food waste in the world

IN PERÚ

- ▶ 21 % OF POPULATION LIVE BELOW THE **POVERTY** LINE
- ▶ 7.5% SUFFER FROM **FOOD INSECURITY**
- ▶ 14.6% CHILDREN SUFFER FROM CHRONIC **MALNUTRITION**

AT THE SAME TIME IN PERU

Annual destruction of food which lost its commercial value is:

7 MILLION
TONNES

3,076 MILLION
CALORIES

WHAT IS A FOOD BANK?

Non-profit organisation **designed to relief hunger in those who need it the most.**

**SUCCESSFUL
MODEL**

- We are the **first** food bank in the country
- We are part of the **global food banking network**
- There are more than **1,000 food banks** around the world

1

We are an **intermediary** who **receives** food donations efficiently and with transparency.

2

Our **allies** can be producers, processing companies, commercializers, and private entities.

3

We distribute what is donated among a vast network of supportive **organizations** who cater to poor and vulnerable populations.

WHICH PRODUCTS DO WE GIVE SOCIAL VALUE TO?

- Products which are soon to expire but still suitable for human consumption
- Packaging mistakes
- Not complying with company specifications
- Finished offers or sales

PUBLICATION OF THE LAW

LAW WHICH PROMOTES FOOD DONATION AND ENABLES THE TRANSPORT OF DONATIONS IN SITUATIONS OF NATURAL DISASTERS(4889/2015-CR)

Promotes donation of food which has lost its commercial value and which are still suitable for human consumption.

This legislation allows the donor not to lose the right to apply for the **tax credit (IGV)** which corresponds to the donated goods. (article 8)

Moreover, it can be **deducted from the income tax** in the third category, up to 10% of the net income as expense. For those who experience loss during the period, the deduction cannot exceed 3% of the net income. (article 7)

Both restrictions limit the donations and still allow the destruction of a large percentage of food without commercial value.

From the third year of the implementation of the law, food warehouses and supermarkets must donate the entirety of the food prohibiting its destruction. (article1)
